

SECURELY ACCESS A WORLD OF UNLIMITED POSSIBILITIES

As more businesses around the world take to the digital or online space in light of the unprecedented change around the world, client security requirements are at the centre of business continuity and innovation. The security threat landscape has also become significantly more complex.

THE STATE OF NETWORK SECURITY

EVERY **39 SECONDS**

a hacker attack takes place.¹

300%

the increased rate reported by the FBI of cybercrimes in the U.S. since the onset of COVID-19.²

77%

the proportion of companies that do not have a Cyber Security Incident Response Plan.³

Cisco End-to-End Security solutions from BCX offers end to end security solutions ranging from Endpoint to Edge and Data Centre, on Premise, Cloud, or Hybrid.

HOW CISCO END-TO-END SECURITY FROM BCX SOLUTIONS BENEFITS YOUR BUSINESS:

01. We start with best of breed products, protecting the network, endpoint, applications, and cloud.

02. We use Zero trust verification as a foundational piece to ensure only the right people gain access.

03. Each product is backed with industry-leading Talos threat intelligence to block more threats to keep organisations safer.

04. We provide automated responses to advanced threats and streamline operations with integrated threat and security management throughout our portfolio.

05. We build our products to work with the other technologies you have in place for integrated security responses – even 3rd party products.

AT BCX, OUR MOST IMPORTANT CUSTOMER IS YOURS.

The Cisco powered End-to-End Security solution suite from BCX is available nationwide. For more information and specific pricing details, speak to your account manager or send an e-mail to **ITSS2@bcx.co.za**
