

How digitally ready is your municipality for the next five years?

Assess your digital readiness and identify what it will take to move from fragmented to connected and intelligent.

Five questions to ask **today**

1. Can leaders see governance risks early enough to act?
2. Can your municipality identify where revenue is being lost?
3. Can citizens access services and track requests digitally?
4. Can essential municipal systems stay running during a disruption?
5. Can your data help leaders anticipate what may happen next?

How BCX helps

Stronger governance

Integrated financial systems, digital records and governance controls

Better revenue visibility

Connected billing, revenue management and smart metering data

Simpler citizen access

Digital portals, service requests and payment channels

Resilient operations

Secure cloud, connectivity, cybersecurity and disaster recovery

Clearer executive insight

Dashboards, analytics, IoT and AI-enabled decision support
